

ESG Consulting

We help companies of all sizes and industries improve their ESG scores and build sustainable businesses. We offer comprehensive services from analysis and strategy to implementation and reporting. We will set up effective ESG communication without greenwashing.

ESG Strategy

The service includes:

- **INTRODUCTORY WORKSHOP** - We will introduce the legislative obligation under the CSRD and subsequent legislation in the context of your company. We will help you understand the entire issue of sustainability in business, the basic principles of the circular economy and ESG. Together, we identify expectations and opportunities in the ESG topic.
- **CURRENT STATUS ANALYSIS** - We will conduct a comprehensive analysis of your ESG activities and determine in which areas you have the greatest potential for improvement. We will determine your readiness for reporting according to ESRS standards and identify data gaps and missing processes. We will evaluate the sustainability status across the company's processes and calculate the carbon footprint.
- **STAKEHOLDER DIALOGUE** - We will conduct and evaluate stakeholder dialogues, identifying the positive and negative impacts of the company from the supply chain to your employees.
- **SELECTION OF MATERIAL TOPICS AND DEFINITION OF GOALS** - We will create a matrix of material topics, set measurable goals and necessary processes for legislative compliance and set action steps to increase the competitiveness of your company.
- **CREATION OF ESG STRATEGY** - We will develop an ESG strategy that will correspond to your goals and the specifics of your industry. For the selected topics, we will create a detailed ESG strategy and action plan of steps for its fulfillment. These later also serve as a basis for the company's ESG reporting.

- **ESG REPORTING AND IMPLEMENTATION** - We will implement ESG across your company and set up an effective process for working with data and regularly evaluating goals related to ESG goals and KPIs and ESG reporting.
- **ESG STRATEGY COMMUNICATION** - We will teach you how to effectively communicate your ESG activities with employees, investors, customers and the general public.

Who is the service suitable for:

An ESG strategy is suitable for a wide range of companies, regardless of their size, industry or stage of development. However, it is essential for companies that:

- are subject to regulatory requirements in the field of ESG,
- want to actively participate in sustainable development and protect the environment,
- want to be a responsible employer and build a strong corporate culture,
- want to improve relations with key stakeholders such as investors, customers, suppliers and regulators.

What is the benefit of the service:

- **ESG strategy helps companies reduce risks and costs.** For example, investments in energy efficiency will return in the form of lower operating costs.
- **ESG strategy opens up new business opportunities.** The number of investors and customers who prefer companies with a good ESG profile is growing.
- **ESG strategy helps companies build a strong corporate culture and increase employee motivation.** Employees feel better in companies that behave responsibly towards the environment and society.

ESG report

The service includes:

- **INTRODUCTORY WORKSHOP** - We will introduce the legislative obligation according to the CSRD and the related legislation in the context of your company. We will identify your expectations about the course of the project and the form of the final ESG report.
- **CURRENT STATUS ANALYSIS** - We will determine your readiness for reporting according to the ESRS standards and identify data gaps and missing processes. We will define the strengths and weaknesses of the company's sustainability. We will evaluate the sustainability status across the company's processes and calculate the carbon footprint.
- **STAKEHOLDER DIALOGUE** - We will conduct and evaluate stakeholder dialogues, identifying the positive and negative impacts of the company from the supply chain to your employees.
- **SELECTION OF MATERIAL TOPICS** - We will create a matrix of material topics, set up the necessary processes for legislative compliance and set action steps to increase the competitiveness of your company.
- **CREATION OF ESG REPORT** - We will provide you with tools and materials for the joint creation of an ESG report.

For whom the service is suitable:

- For companies and institutions that need to fulfill the legislative obligation according to CSRD (ESG reporting).
- For companies that want to be a responsible employer and build a strong corporate culture.
- For companies that want to improve relations with key stakeholders, such as investors, customers, suppliers and regulators.
- For companies that want to gain a competitive advantage in the market.

What is the benefit of the service:

- **Higher attractiveness for banks** - financial savings and reduction of own risk in non-financial areas.
- **Cheaper financing** - up to 0.5% lower interest rate due to reduced investment risk.
- **Improve your company's reputation** and strengthen the trust of investors, regulators and customers.
- **Gain a competitive advantage** in a market where ESG is becoming an increasingly important factor.

ESG Personal Manager

The service includes:

We will prepare your company for the future. We will help you with the timely and effective implementation of ESG strategy and principles into the everyday reality of your company. We will ensure that your project will be attractive to investors, customers and employees and we will work to maintain your competitiveness.

- **EXPERT PARTNER IN ESG** - We will be your expert partner - we monitor trends, legislative requirements and news in ESG for you. Through consultations and mentoring, we will keep you up to date and at the same time provide you with full flexibility of services according to your needs and preferences.
- **ESG INTO CORPORATE PROCESSES** - We will implement ESG management into corporate processes. We will help you with setting up new processes for collecting non-financial data and reporting. We will identify key activities for implementing ESG criteria.
- **MEASUREMENT AND REPORTING** - We will assess the readiness for ESRS standards and the state of sustainability across processes throughout the company. We will evaluate which environmental impact metric is best for you. We will calculate the carbon footprint.
- **ESG STRATEGY AND POLICY** - We will create an ESG strategy and set up the processes for its implementation in the company. Thanks to the input data, we can set up a feasible ESG strategy and a transformation implementation plan.

Who is the service suitable for:

A tailor-made ESG manager is ideal for companies that:

- Do not have sufficient internal resources and knowledge for the effective implementation of ESG principles.
- They want to focus on their core activities and do not want to deal with ESG administration.
- They are looking for a flexible and cost-effective solution for ESG issues.
- They want to gain a competitive advantage in a market where ESG is becoming an increasingly important factor.
- Chtějí získat konkurenční výhodu na trhu, kde se ESG stává stále důležitějším faktorem.

What are the benefits of the service:

Expertise and practice

- We are a team of specialists with in-depth knowledge of ESG principles and related regulations.
- We continuously monitor developments in the field of ESG and implement best practices into our daily practice.
- We have access to a wide network of contacts and experts in the field of ESG.

Efficiency and cost and time savings

- You do not have to build and develop an internal ESG department.
- You only pay for the services you really need.
- You get a flexible solution that easily adapts to your changing needs.

Objective and independent process

- As an external entity, we will provide you with an objective and independent view of your ESG activities.
- We will help you identify and resolve potential ESG issues.
- We will increase the transparency and credibility of your ESG reporting.

Competitive advantage

- We will help you achieve high quality outputs that will correspond to ESRS standards and the chosen ESG strategy.
- We will improve your company's reputation and strengthen the trust of investors, regulators and customers. We will ensure your competitive advantage in a market where ESG is becoming an increasingly important factor.
